

Index

Experiment No.	Title	Remarks
1	Study of Various Machine Learning tools	
2	Installation and Study of WEKA interface	
3	Preparing synthetic data set to plot scatter plot using M.S.Excel and Python and study the features of Scatter plot	
4	Implementation of Simple Linear Regression and analysis of its statistics(Such as Multiple R, R square etc.)in M.S.Excel	
5	Implementation of Simple Linear Regression using Python (Without using Library)	
6	Implementation of Multiple Linear Regression to predict housing price with Python and its libraries	
7	Implementation of Logistic Regression with Iris data set.	
8	Study and implementation of Normalisation and standardisation	
9	Implementation of KNN algorithm
